YALE School of Management
Education Leadership Conference

2026 Education Leadership Conference Networking Expo

Every year, the Education Leadership Conference hosts hundreds of education professionals in New Haven to debate, discuss, and engage on current topics in education reform. As we continue to rebuild our in-person community, the 2026 conference will bring together a diverse mix of superintendents, district leaders, non-profit executives, and students, reinforcing our presence in the Northeast education ecosystem.

Organizations can further engage and recruit participants outside of conference sessions by taking part in the 2026 ELC Networking Expo throughout the conference on Friday, April 24, 2026. The Expo provides a central hub for organizations to distribute materials, recruit for open positions, and strategically network with attendees in a dedicated space at the Yale School of Management. We are designing the Expo floor to facilitate high engagement between exhibitors and our community. Expo space is limited, so be sure to register early!
